

Systems of Support

1

UDL

UDL is a framework that aims to improve and optimize teaching and learning for all people based on scientific insights into how humans learn.

2

MTSS

MTSS is a comprehensive framework that addresses academic, behavioral, and social-emotional learning in a fully integrated system of support.

3

SENIA International

SENIA International champions inclusion by supporting all school community members with professional learning to better support the learning of neurodivergent and disabled individuals.

Please Remember

These systems of support benefit all students, not just those who are neurodivergent. By creating inclusive and supportive learning environments, we can help all students reach their full potential.
